### **CV SUMMARY:**

Turyasingura Geoffrey is a self-motivated, dynamic, hardworking and committed agricultural educationist with over a decade of experience in the field of agricultural training. He is more into research work geared towards increasing food security and the markets of Agricultural products through value addition and participatory approaches.

Currently he's a Lecturer in the department of Crop Science, Faculty of Agriculture and Animal Sciences Busitema University – Arapai Campus and a PhD student of Global Change and Sustainable Agriculture in the same University.

Turya is the Principal Investigator of the project titled “Strengthening the Orange Fleshed Sweet Potato Value Chain in Uganda through an Agro-science Park at Busitema University”. The project is funded by Science, Technology and Innovation Secretariate (STI), Republic of Uganda in partnership with America’s Century Green Consortium (CGC) and the Institute for National Transformation (INT). The major aim of the project is to establish an Agro-science Park at Busitema University in which various value-added products, technologies and innovations will be produced for market. Orange Fleshed Sweet Potato (OFSP) products will be the pioneer and later others in dairy, Oil seed among others will come on board later.

At the faculty, he is involved in training graduate and undergraduate students in the fields of Agricultural extension, Soil, water and environment management, Agroforestry, principles and practices of Agriculture, Harvest and post-harvest management and sustainable farming systems. He is also involved in supervising undergraduate student’s research projects among other duties. He has also spearheaded and participated in developing and reviewing Agricultural curricula for certificate, diploma, undergraduate and graduate agricultural programmes for the faculty.

Turya was also involved in faculty leadership as Head of Department Crop Science, a member of the faculty board, faculty finance committee, faculty appointments board,

University Grants review committee, Chairperson Welfare committee of the Faculty and member of the Exam malpractices and Irregularities Committee. He's also the patron of St. Andrews Church of Uganda – Arapai Campus.

Before joining Busitema University, he was a Senior Lecturer in the then Arapai Agricultural College where he was also the head of department Crop Science, a member of the governing council of the college representing academic staff, chairperson of staff welfare committee, UNEB examiner for Uganda Technical examinations among others. He also taught in various schools in Mbarara district especially Kisyoro Secondary school, Kadogo Community Polytechnic among others before joining Busitema University.
